

## **Innovation Report:**

Write a 2-3 paragraph report stating the Use of HTML, CSS, JS, Github and other technologies learned in this class for innovation in Library and Information Services.

I think that it was a good opportunity to learn about emerging programming technologies in ICT. The course is important to the Library information technician because it will help them develop 21-century skills to serve and communicate with library users.

For example, the library technician will be able to setup Their library activities website. In addition to that this course considers an important introduction to the web programming language.
